

RR270 27 Ton Fast Hydraulic Log Splitter

6 Second Cycle Time

The Range Road RR270 27 Ton Fast Hydraulic Log Splitter is equipped with a 270cc gasoline engine to deliver maximum splitting force, the patented hydraulic cylinder gives us a 6 second cycle time. This unit will do both horizontal or vertical splitting and has reinforced stripper plates to help remove stuck logs. It has a large hydraulic fill cap for easy filling and level checking. The shielded wedge & channel beam design makes for safe operation and clean splitting action. The RR270 has a wide log cradle making splitting wood quicker, easier and safer.
