

Range Road RR403 Wood Chipper

The Range Road RR403 ATV/UTV Log Chipper comes with a 13.5Hp Briggs & Stratton Electric Start gas engine and will handle 125mm (5") branches.

The unit has a large easy to access and operate emergency kill switch in the work zone of the feed hopper.

The RR400 is belt driven from a centrifugal clutch on the 13.5Hp engine, it uses 2 easy to adjust belts to transfer power.

The feed hopper pulls open for use and slides closed for storage.

The output chute rotates a full 360°

The drum has two reversible 300mm x 55mm x 6mm thick hardened steel cutting edges and the hopper has easy open latches to clean out debris when you are finished.

Engine: 13.5Hp Briggs & Stratton Gasoline Engine

Electric start

Chipping Capacity: 8-9 CBM/hour

Max. Chipping Diameter: 125mm x 280mm
